AGENDA 3
ITEM NO. _____

CITY COUNCIL STAFF REPORT

DATE: JUNE 10, 2020
TO: HONORABLE MAYOR, AND MEMBERS OF THE CITY COUNCIL
FROM: JENNIFER E. VASQUEZ, CITY MANAGER 
BY: HRANT MANUELIAN, FINANCE DIRECTOR
RE: REVENUE REPORT FROM JULY 2019 TO MAY 2020

RECOMMENDATION

Staff recommends that the City Council receive and file the Revenue Report from July 2019 – May 2020.

BACKGROUND

In an effort to maintain transparency, the City's Finance Department prepares a monthly Revenue report for the City Council's review. The Revenue Report is a tool used by the Council to monitor and oversee the financial health of the City.

DISCUSSION

The attached analysis (see Attachment 1) compares prior YTD and current YTD Revenue

The total revenue received¹ from July 2019 to May 2020 totaled \$13,175,325.91 which is 1.02% lower than the same period last year.

- **GENERAL FUND – TAXES:** Overall there is a 25.08% increase in total taxes. The contributing factors for the increase are Cannabis Sales Tax and Sales Tax Revenues.

¹ See row entitled Total Revenues

This increase offsets the reduction in User Utility Tax, Property Taxes, & Franchise & Collectors Fee.

- *GENERAL FUND – LICENSES & PERMITS*: Overall there is a 7.79% increase in total Licenses & Permits. The contributing factors of the increase are Commercial Cannabis Renewals & Public Works & Residential/Building Permits.
- *GENERAL FUND – CHARGES FOR SERVICES*: The total for Charges for Services received has totaled \$147,101.68 which is 160% higher than the same period last year. There has been an increase in all items in this category.
- *GENERAL FUND – FINES AND FORFEITURES*: A contributing factor of the reduction in Parking Fines & SEMC: Court Collections (DMV) revenue is the loss of parking enforcement coverage on weekends. Since April 2019 there has been a vacancy for the Part-time Parking Enforcement Officer position that diminished our capacity to issue parking citations.
- *SPECIAL REVENUE FUND* - The total Special Revenue Fund received totaled \$3,367,316.99 which is 16.70% lower than the same period last year. The contributing factor for the difference in Special Revenue is due to the reimbursements received in FY 2018-19 from Environmental Protection Agency (EPA) & Community Development Block Grant (CDBG) for the sewer replacement project.

LEGAL REVIEW

The City Attorney has reviewed this report.

FISCAL IMPACT

There is no fiscal impact involved with this action.

CITY COUNCIL STAFF REPORT

DATE: JUNE 10, 2020

TO: HONORABLE MAYOR, AND MEMBERS OF THE CITY COUNCIL

FROM: JENNIFER E. VASQUEZ, CITY MANAGER *jm*

BY: KEVIN KO, CONTRACT CITY ENGINEER

RE: CONSIDERATION OF AWARDING A PROFESSIONAL SERVICES AGREEMENT (PSA) FOR PROFESSIONAL CONSTRUCTION MANAGEMENT AND INSPECTION SERVICES FOR THE PAVEMENT REHABILITATION PROJECT FY 2019-20 ON VARIOUS STREETS WITH TRANSTECH ENGINEERS, INC.

RECOMMENDATION

It is recommended that the City Council approve a PSA with Transtech Engineers, Inc. (Transtech) to provide professional construction management and inspection services for the Pavement Rehabilitation Project FY 2019-20 on Various Streets for a total amount not-to-exceed (NTE) \$125,630 and authorize the City Manager to execute the PSA with Transtech.

FISCAL IMPACT

There is no fiscal impact as this project was budgeted for in the special revenue funds. There are available funds within these funds and no additional budget is currently needed.

LEGAL REVIEW

The City Attorney has reviewed this report.

BACKGROUND

On January 24, 2018, the City Council adopted the Pavement Management System (PMS) Report that provides recommendations on maintenance treatments for the City's street network. As a result, staff developed a multi-year

work plan to implement such recommendations by FY 2021-22. The work plan is currently in its second year and a list of streets designated to be resurfaced has been included in the Pavement Rehabilitation Project FY 2018-20 on Various Streets.

In order to ensure the project is completed in compliance with all contract documents and specifications, construction management, inspection, and materials testing services are needed to oversee construction activities throughout the life of the project. Since the City does not currently have the capacity to perform these services in-house, staff issued a Request for Proposals (RFP) (Attachment 2) to solicit such services.

DISCUSSION

On March 23, 2020, staff issued a RFP outlining the requested services on the City's website. On April 16, 2020, a total of eleven (11) proposals were received. Each proposal was evaluated and ranked based on the proposer's qualifications and financial stability; qualifications of staff, operations, facilities, and resources; operating methodologies and practices; and cost effectiveness. Based on the RFP's evaluation criteria and interviews with the top three (3) ranked firms, Transtech's proposal scored the highest (Attachment 3).

In no event shall Consultant be entitled to receive more than the amount that would be paid to Consultant

for the full performance of the Services required by this Agreement. Consultant shall have no other claim against City by reason of such termination, including any claim for compensation.

14. FORCE MAJEURE. CONSULTANT SHALL NOT BE LIABLE FOR ANY FAILURE TO PERFORM ITS OBLIGATIONS UNDER THIS AGREEMENT IF CONSULTANT PRESENTS ACCEPTABLE EVIDENCE, IN CITY'S SOLE JUDGMENT, THAT SUCH FAILURE WAS DUE TO ACTS OF GOD, EMBARGOES, INABILITY TO OBTAIN LABOR OR MATERIALS OR REASONABLE SUBSTITUTES FOR LABOR OR MATERIALS, GOVERNMENTAL RESTRICTIONS, GOVERNMENTAL REGULATIONS, GOVERNMENTAL CONTROLS, JUDICIAL ORDERS, ENEMY OR HOSTILE GOVERNMENTAL ACTION, CIVIL COMMOTION, FIRE OR OTHER CASUALTY, OR OTHER CAUSES BEYOND CONSULTANT'S REASONABLE CONTROL AND NOT DUE TO ANY ACT BY CONSULTANT.

In addition to the right to terminate pursuant to Section 13, if the City Manager determines that Consultant is in default in the performance of any of the terms or conditions of this Agreement, City shall serve Consultant with written notice of the default. RESPONSE TO QUESTIONS

RFP FOR PROFESSIONAL CONSTRUCTION MANAGEMENT AND INSPECTION SERVICES FOR THE CONSTRUCTION OF PAVEMENT REHABILITATION PROJECT FY 19/20

No .	Question	Response
1	The scope includes a constructability review. Is this just one review?	The selected proposer shall provide one constructability review of the PS&E and notify the City in writing of any areas of concern and offer recommendations to improve construction efficiencies and/or reduce impacts to property owners and the traveling public.
2	Will Labor Compliance certify ALL labor records in detail, or just to spot check to verify compliance in general?	The selected proposer shall review the payrolls to confirm the contractor is meeting contract requirements and notify the contractor to make any required corrections. This shall include verification of prevailing wage rates set by the State of California Department of Industrial Relations (DIR) and verification of hours worked against the Construction Observer/Inspector's daily reports.
3	Generally we will have a registered engineer providing general oversight as the Construction Manager, and an Assistant Construction Manager doing more of the actual daily field work. This way we can provide a lower cost for the work. Will this be acceptable for the City?	This will be acceptable to the City.
4	Do you have a map or plan of the proposed streets in the project area?	Yes, please see Exhibit 1 in Addendum No. 1
5	Is the City open to discussing the indemnification clause? Some of these provisions may not be able to be met by surety, specifically the "alleged or threatened" and "claimed to arise out of" clauses.	This question is currently under review by the City Attorney. A response is anticipated to be provided by the April 8, 2020 Response to Questions deadline.

RESPONSE TO QUESTIONS

RFP FOR PROFESSIONAL CONSTRUCTION MANAGEMENT AND INSPECTION SERVICES FOR THE CONSTRUCTION OF PAVEMENT REHABILITATION PROJECT FY 19/20

No .	Question	Response
1	The scope includes a constructability review. Is this just one review?	The selected proposer shall provide one constructability review of the PS&E and notify the City in writing of any areas of concern and offer recommendations to improve construction efficiencies and/or reduce impacts to property owners and the traveling public.
2	Will Labor Compliance certify ALL labor records in detail, or just to spot check to verify compliance in general?	The selected proposer shall review the payrolls to confirm the contractor is meeting contract requirements and notify the contractor to make any required corrections. This shall include verification of prevailing wage rates set by the State of California Department of Industrial Relations (DIR) and verification of hours worked against the Construction Observer/Inspector's daily reports.
3	Generally we will have a registered engineer providing general oversight as the Construction Manager, and an Assistant Construction Manager doing more of the actual daily field work. This way we can provide a lower cost for the work. Will this be acceptable for the City?	This will be acceptable to the City.
4	Do you have a map or plan of the proposed streets in the project area?	Yes, please see Exhibit 1 in Addendum No. 1
5	Is the City open to discussing the indemnification clause? Some of these provisions may not be able to be met by surety, specifically the "alleged or threatened" and "claimed to arise out of" clauses.	A response cannot be given at this time as the indemnification clause proposed by the selected consultant will require an in-depth review. Proposed language may be considered, although not guaranteed, for review during the final selection process.
6	What is the funding source of this project? Is there federal funding and does it require Caltrans contract administration standards?	This project is anticipated to be funded with local funds and Senate Bill 1 funds. Caltrans contract administration standards are not required, but are encouraged.

SIMILAR PROJECTS:

City of Commerce, Washington Boulevard Rehabilitation (2015): The job was a reconstruction and widening project covering a 2.7-mile segment of Washington Boulevard between Indiana Street to the Santa Ana (I-5) Freeway. The project was to improve truck circulation and current level of service operations by reducing delays and traffic while improving the overall air quality. It would widen the mentioned segment from two lanes to three lanes in each direction, which would allow for an increase in the turning radius and larger medians for better traffic flow. Geo-Advantec was selected as the Caltrans certified laboratory and provided field inspection/testing and laboratory testing in compliance with Caltrans Local Assistance

Manual. Our team performed testing and inspection on flexible and rigid pavements per the project/Caltrans requirements. We also measured the compressive and flexural strengths of different types of concrete pavement components. The project duration was about 24 months and the construction cost was approximately \$30M.

City of Pomona, Storm Water Disposal at Gary Avenue (2015): The City intended to design and construct an on-site storm-water disposal system. The system would collect and infiltrate Gary Avenue runoff into the ground. Geo-Advantec scope of work included conducting several exploratory borings at the designated locations, conducting SPT and sampling at 3 feet intervals for the substrata profile determination, collecting disturbed/bulk samples of the encountered subsurface material, conducting three percolation tests at a depth targeting the most permeable layer, performing laboratory testing on the selected soils samples, reviewing the field data and the laboratory test results, performing engineering analyses, and preparing a final geotechnical evaluation report that included results of our field and laboratory testing and determined infiltration rates at the site. Our team completed the project in less than two weeks.

City of Temple City, Rosemead Boulevard Safety Enhancement and Beautification (2012-2014): The project consisted of streetscape enhancements on Rosemead Boulevard to improve safety and aesthetics within the Temple City right-of-way. The proposed improvement was over approximately 2 miles of road, from the southern city limit with the City of Rosemead at the UPRR railroad bridge to the Northern city limit with the County of Los Angeles at Callita Street. The project was federally funded and performed under the Caltrans oversight. Geo-Advantec provided the resident inspector of record services for the project. The duration of the project was about 16 months and the construction cost was about \$18M.

Los Angeles Metropolitan Transportation Authority (METRO), Initial Site Assessment (ISA), Preliminary Geotechnical Study, and Pavement Engineering Study for Lakewood and Alondra Intersections, City of Bellflower, California (2015): The Los Angeles County Metropolitan Transportation Authority (Metro) completed a Feasibility Study analyzing and identifying several "hot spots" along the SR-91, I-605, and I-405 corridors. These "hot spots" are chronic traffic congestion areas and causing the flow of traffic throughout the area to slow down to a stop. One of the improvements proposed by Metro and Caltrans in collaboration with the Gateway Cities Council of Governments and the San Gabriel Valley Council of Governments for the I-605 Hot Spots was the Lakewood and Alondra intersection. The intersection was among the "Top 40" intersections selected for

initial improvement evaluation. Geo-Advantec provided Initial Site Assessment (ISA) report and Pavement Engineering Study for the project. Geo-Advantec Inc. (GAI), provided the Initial Site Assessment (ISA) for the project.

Project Duration:

Page 2 of City's RFP indicates the following:

- The Engineer's Estimate for the work is \$1,200,000.
- The construction is anticipated to be completed within 60 working days of the Notice to Proceed.

Section copied from City's RFP, Page 2 is provided below as reference:

The Engineer's Estimate for the work is \$1,200,000. The construction is anticipated to be completed within 60 working days of the Notice to Proceed. In general, the City of Maywood uses the "Standard Specifications for Public Works Construction" and the "Standard Plans for Public Works Construction" as the basis of the project's plans, specifications, and estimate.

Per Addendum 1 issued by the City, the City does not have Formal bid documents (plans and specifications) yet.
City's Response to questions 7 and 8 in Addendum 1 is provided below as reference:

7	<u>Are the bid documents available?</u>	Formal bid documents are not yet available as the project has not yet been bid by the City. Exhibit 1 in Addendum No. 1 provides the general scope and locations of the project. In general, this project is part of the City's annual paving program primarily consisting of grind and overlay, concrete repairs, restriping, and related improvements.
8	<u>Are the plans and specifications available to review?</u>	Formal bid documents are not yet available as the project has not yet been bid by the City. Exhibit 1 in Addendum No. 1 provides the general scope and locations of the project. In general, this project is part of the City's annual paving program primarily consisting of grind and overlay, concrete repairs, restriping, and related improvements.

We prepared our estimated hours and fees based on assumptions per City provided information. For the Fee Proposal submittal, we used the 60 working day duration as indicated by the City. However, once the project specifications and plans are prepared by the City, and if the actual field construction duration is reduced from 60 working days to lesser days (which may be possible) we can review the updated information, and suggest any adjustments in the construction duration and our hours and fees, as well as any adjustments to budget allocations for the subconsultants appropriately, and hopefully develop an updated scope and fee that may be more efficient and cost effective.

C. APPROACH TO EXECUTE THE SCOPE OF WORK IN AN EFFICIENT MANNER

Even though this project is not funded by Federal Funds, for contract administration, we generally follow guidelines similar to Caltrans Local Assistance Procedures Manual (LAPM).

Conduct random spot interviews with the Contractor's employees and subcontractor's employees on the project. On average, one report per week for each operation being performed is anticipated.

Schedule Approach

Our approach to Scheduling and Timely Completion of Project and Schedule Recovery includes having the contractor prepare a baseline schedule, which identifies the project scope, critical path, project milestones, target dates, phases and sequences of work, and activity durations. When significant activities show that they are slipping from the baseline, we work with the contractor to develop recovery plans. Following are samples of schedules we work with:

- o **Project Management:** We provide proactive management and attempt to identify potential issues and problems in advance and take corrective actions before they become problems. Key project team members will attend regularly-scheduled project status meetings with the agency and other involved agencies throughout the project's duration. We will provide project status reports. We will keep a detailed record of communication that will include directions given by agency staff and actions taken by our team. These systems are structured such that recall of critical information is readily available.
- o **Design Reviews (N/A, Scope does not include this service; provided as reference only):** When requested, our team of professionals with extensive professional experience are responsible for following our detailed QC/QA of plans, design calculations, specifications, estimates and reports, following our color coding, marking, comments resolutions procedures.
- o **Constructability Reviews(N/A, Scope does not include this service; provided as reference only):** When requested, our staff performs constructability review in relation to our construction specifications, and discuss, if necessary, construction phases or alternative construction procedures. Our comprehensive database offers management tools that allows all team members to review drawings simultaneously and track design progress and comment resolution.
- o **Value Engineering(N/A, Scope does not include this service; provided as reference only):** We approach value engineering as a continuous and evolving function throughout the entire preliminary and design phases. Value engineering is treated as an integral part of developing design criteria and ultimate incorporation into the project plans, specifications and estimates. Integrating value engineering throughout the project significantly reduces the chance of a major design alternative being identified by a "value engineering team" after the project is designed, which would cause a tremendous redesign effort and considerable time delays.
- o **Cost Estimating(N/A, Scope does not include this service; provided as reference only):** We use a variety of methods to generate accurate cost estimates. Our estimators have construction field backgrounds and pull in that additional perspective to cost estimating from project concept/feasibility through change orders to address your specific needs. A methodology of communication, technical resources, and analytical thinking shaped by experience is used to reflect projects in terms of costs. Our estimating database, based on our experience at construction, is continually reviewed and updated for current labor rates, equipment rates, and material pricing.
- o **Third Party Coordination Public and Regulatory Agencies(N/A, Scope does not include this service; provided as reference only):** One of the most common schedule delays occurs during the review and approval process with the public and regulatory agencies. Our approach is to initiate communications with agency staffs early in the project development. Meeting with agency staff during design development and in order to gain a clear understanding of their specific requirements and standards, is key to avoiding any major revisions or conflicts in later project phases that may result in costly scope revisions. This

early communication also establishes an understanding of the project schedule, when the plans will be submitted, so that the local approval agencies can plan ahead to review and approve the project plans in a timely manner.

- **Methodology for Communication to Inform City on Work Progress:** Key project team members will attend regularly scheduled project status meetings with agency staff throughout the project's duration. All project-related directions, and commitments made by city staff will be incorporated into the project's record of communication and the status of each issue.
- **Approach to Cost Control and Change Orders:** We evaluate project costs and develop feasible mitigation measures to minimize additional costs. We work as a team to solve problems or make modifications in the field to address unforeseen conditions or owner generated changes in a cost-effective manner.
- **Approach to Scheduling and Timely Completion of Project and Schedule Recovery:** The baseline schedule should properly identify the project scope, critical path, project milestones, target dates, phases and sequences of work, and activity durations. When significant activities show that they are slipping from the baseline, we work with the contractor to develop recovery plans.
- **Management of Documents:** We use an electronic file management system. All construction forms, daily dairies, weekly statement of working days, etc. are stored in our electronic file system, and are per Caltrans documentation system. We provide these documents at the end of the project to the client in organized files as well as pdf files.
- **Electronic File Sharing Platform:** We create and provide access to project participants a common project information and file sharing platform and able to track changes.

SUBJECT: ADOPTION OF RESOLUTIONS CALLING FOR AND GIVING NOTICE OF A GENERAL MUNICIPAL ELECTION TO BE HELD ON TUESDAY, NOVEMBER 3, 2020; RESOLUTION REQUESTING THAT THE BOARD OF SUPERVISORS OF THE COUNTY OF LOS ANGELES CONSOLIDATE THE CITY'S GENERAL MUNICIPAL ELECTION WITH THE STATEWIDE ELECTION TO BE HELD ON NOVEMBER 3, 2020 PURSUANT TO SECTION 10403 OF THE ELECTIONS CODE; AND RESOLUTION ADOPTING REGULATIONS FOR CANDIDATE STATEMENTS.

RECOMMENDATION:

Staff recommends that the City Council adopt the following Resolutions:

- Resolution calling for and giving notice of a general municipal election to be held on Tuesday, November 3, 2020;
- Resolution requesting that the Board of Supervisors of the County of Los Angeles consolidate the City's general municipal election with the statewide election to be held on the same date pursuant to Section 10403 of the California Elections Code;
- Resolution adopting regulations for candidate statements submitted to the voters at the November 3, 2020 general municipal election.

BACKGROUND/DISCUSSION:

Under applicable State law, the City of Maywood must take steps to call for the election of certain officers of the City and to order a General Municipal Election to be held on Tuesday, November 3, 2020, which will be consolidated with the Statewide Election to be held on the same day.

The General Municipal Election will be held for the purpose of electing two (2) members to the City Council each for a four-year term; the election of a City Clerk for a four-year term; and election of a City Treasurer for a four-year term. Accordingly, for the City Council's adoption is the proposed resolution calling and giving notice of the election. This resolution also contains a provision for how the City will handle a tie-vote. As allowed by the Elections Code, the City Council can determine the tie by lot.

Pursuant to recent changes in the dates for holding general municipal elections, the City's General Municipal Election is required to be consolidated with the Statewide General Election to be held on November 3, 2020. A proposed resolution requests the Board of Supervisors to consent to the consolidation and for the County to conduct the election as provided for by law. Provisions in the resolution have been updated from previous years to recognize that the County of Los Angeles conducts its elections through voting centers. The Los Angeles County Registrar of Voters will canvass the election and present the results to the City Council. The City is required to reimburse the County for the election costs.

The last resolution pertains to the regulations for Candidate Statements. Candidate Statements are optional and the cost to print the statements in the Voter's Guide shall be borne by the candidate. Candidates are charged a deposit at the time of nomination filing, with final costs provided by the Registrar of Voters following the election. As in previous years, if the cost exceeds the estimated deposit, candidates will be billed for the remainder. If the costs is below the estimate, candidates will receive a refund, Candidates pay the cost for printing and translation into Spanish and any other languages if desired. The Candidate Statement must comply with the applicable provisions of the Elections Code.

LEGAL REVIEW:

The City Attorney has reviewed this staff report.

FISCAL IMPACT:

The Los Angeles County Registrar of Voters will be providing an estimated cost for the November 3, 2020 election and the Resolution requesting for consolidation with the County includes a provision that authorizes the City Manager to contract with the County for election-related services.

WHEREAS, §13307 of the Elections Code of the State of California provides that the governing body of any local agency adopt regulations pertaining to materials prepared by any candidate for a municipal election, including costs of the candidates statement.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MAYWOOD, CALIFORNIA, DOES HEREBY RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

Section 1. General Provisions. In addition to these restrictions, pursuant to Elections Code Section 13308, any candidate statement submitted shall be limited to a recitation of the candidate's own personal background and qualifications, and shall not in any way make reference to other candidates for that office or to another candidate's qualifications, character, or activities. The City Clerk or the City Elections Official as determined by the City Council shall not cause to be printed, posted on an Internet Web site, or circulated any statement that the City Clerk determines is not so limited or that includes any reference prohibited by this section. The statement shall be filed in typewritten form in the office of the City Clerk at the time the candidate's nomination papers are filed. The statement may be withdrawn, but not changed, during the period for filing nomination papers and until 5:00 p.m. of the next working day after the close of the nomination period.

2. The candidate shall be required to pay for the cost of translating the candidates statement into any foreign language that is not required as specified in (A) and/or B of Section 2 above, pursuant to Federal and/or State law, but is requested as an option by the candidate.

B. Printing:

1. The candidate shall be required to pay for the cost of printing the candidates statement in English in the main voter pamphlet.

The estimate is just an approximation of the actual cost that varies from one election to another election and may be significantly more or less than the estimate, depending on the actual number of candidates filing statements. Accordingly, the City Clerk or the City Elections Official is not bound by the estimate and may, on a pro rata basis, bill the candidate for additional actual expense or refund any excess paid depending on the final actual cost. In the event of underpayment, the City Clerk or the City Elections Official may require the candidate to pay the balance of the cost incurred. CITY COUNCIL STAFF REPORT

DATE: JUNE 10, 2020

TO: HONORABLE MAYOR, AND MEMBERS OF THE CITY COUNCIL

FROM: JENNIFER E. VASQUEZ, CITY MANAGER *Jm*

BY: KEVIN KO, CONTRACT CITY ENGINEER

RE: RESOLUTION APPROVING THE FINAL ENGINEER'S REPORT, CONFIRMING THE DIAGRAM AND ASSESSMENTS, AND ORDERING LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE STREET LIGHTING ASSESSMENT DISTRICT FOR FISCAL YEAR 2020/21 PURSUANT TO THE PROVISIONS OF DIVISION 15, PART 2 OF THE STREETS AND HIGHWAYS CODE OF THE STATE OF CALIFORNIA.

RECOMMENDATION

Hold a public hearing and adopt a resolution approving the final engineer's report confirming the diagram and assessments, and ordering the levy and collection of assessments within the City of Maywood Street Lighting Assessment District for Fiscal Year 2020/21 pursuant to the provisions of Division 15, Part 2 of the streets and highways code of the State of California.

BACKGROUND

The City of Maywood currently levies and collects special assessments through the City of Maywood Street Lighting Assessment District (SLAD) to offset the cost of providing street lighting and traffic signal improvements and maintenance services within the City. Per Proposition 218, passed by California voters in November 1996, there can be no new or increased assessments without approval of the affected property owners. When there is an increase proposed, Proposition 218 provides for a ballot and voting process that seeks the approval from the majority of affected property owners based on assessment ballots weighted in accordance with the proposed assessment against each parcel.

Since there is no increase in rates or any new assessments proposed for Fiscal Year 2020/21, the ballot process is not required.

The Landscaping and Lighting Act of 1972 (the Act) requires that an annual review and updated engineer's Report be prepared and approved to set assessment rates for the ensuing fiscal year. Francisco & Associates, Inc. was retained to assist the City with the preparation of the annual engineer's report and submittal of the annual assessments to the County for inclusion on the property tax bills.

On May 27, 2020, City Council adopted resolutions that initiated proceedings, ordered, and approved the preliminary engineer's report, and set the public hearing for June 10, 2020. Proper notice of the public hearing was given by publishing a notice in the newspaper at least ten days prior to the scheduled public hearing.

Upon conclusion of the public hearing, City Council may adopt a resolution approving the final engineer's report, confirming the diagram and assessments, either as originally proposed or as modified (provided that the assessments are not increased). The adoption of this resolution is the final step in the annual process to authorize the levy of SLAD assessments for Fiscal Year 2020/21.

DISCUSSION

Without the collection of the annual SLAD assessments, maintenance activities would be greatly reduced, and the funding would be a burden on the City's General Fund. Staff has reviewed the attached final engineer's report and is satisfied with the report, including the assessments, budget items, and diagram. Staff recommends City Council conduct a public hearing, approve the final engineer's report, and order the levy and collection of assessments as the final step to authorize the placement of the SLAD assessments on the Los Angeles County property tax bills.

LEGAL REVIEW

This item has been reviewed by the City Attorney.

FISCAL IMPACT

There is no fiscal impact at this time. If assessments are not levied as proposed there would be a loss of revenue of approximately \$174,520 for Fiscal Year 2020/21.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MAYWOOD HEREBY DETERMINES, FINDS AND RESOLVES AS FOLLOWS:

WHEREAS, this City Council, by previous Resolutions, initiated proceedings and declared its intention to levy and collect assessments against lots and parcels of land within an existing assessment district known and designated as "THE CITY OF MAYWOOD STREET LIGHTING ASSESSMENT DISTRICT" (hereinafter referred to as the "District") for the fiscal year commencing July 1, 2020 and ending June 30, 2021 pursuant to the provisions of the Landscaping and Lighting Act of 1972, Division 15, Part 2 of the Streets and Highways Code of the State of California (hereinafter referred to as the "Act"); and

WHEREAS, the City previously determined that the annual assessments originally established for the District were for the maintenance and operation of street lights within the public street right-of-way. As such, pursuant to Article XIID Section 5(a), the pre-existing assessment amount has been exempted from the procedural requirements of Article XIID Section 4 since the amount of the assessment has not increased since the passage of Proposition 218; and

WHEREAS, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, and posted on the City's website, the Fiscal Year 2020/21 Engineer's Report in connection with the proposed levy and collection of assessments against lots and parcels of land within the District, and the City Council did by previous Resolution approve such report on May 27, 2020; and

WHEREAS, at this meeting the Engineer has filed with the City Clerk, and the City Clerk has presented to the City Council, and posted on the City's website, a modification to the Engineer's Report to allocate \$8,000 to undertake an assessment of street lighting needs, which results in a decrease to the ending fund balance for the capital reserve; and

WHEREAS, the City Council desires to levy and collect assessments against lots and parcels of land within the District for the fiscal year commencing July 1, 2020 and ending June 30, 2021, to pay for the costs and expenses for the improvements described in Section 5 below.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE CITY OF MAYWOOD STREET LIGHTING ASSESSMENT DISTRICT, AS FOLLOWS:

Section 1. That the above recitals are all true and correct.

Section 2. Following notice duly given, the City Council has held a full and fair public hearing, and all interested persons were afforded the opportunity to hear and be heard. The City Council considered all oral and written statements, protests and communications made or filed by interested persons.

All protests and objections to the levy and collection of the proposed assessment for the fiscal year commencing on July 1, 2020 and ending on June 30, 2021 are hereby overruled by the City Council. The City Council now declares the levy of proposed assessments against lots and parcels of land within the District for Fiscal Year 2020/21 to pay for the costs and expenses for the improvements described in Section 5 below pursuant to the terms and provisions of the Act.

Section 3. The City Council hereby approves the modifications to the Engineer's Report, and approves the Engineer's Report, as modified, as described in the recitals hereof. Based upon its review of the Fiscal Year 2020/21 Engineer's Report, as modified, and other reports and information, the City Council hereby finds and determines that (i) the lands within the District will be benefited by the improvements described in Section 5 below, (ii) the District includes all of the lands so benefited, and (iii) the net amount to be assessed upon the lands within the District for the 2020/21 fiscal year in accordance with the Engineer's Report, as modified, is apportioned by a formula and method which fairly distributes the net amount among all assessable lots and parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.

Section 4. The diagram and assessment as presented to the City Council and on file in the office of the City Clerk are hereby confirmed as filed.

Section 5. The City Council hereby orders the proposed improvements to be made, which improvements are briefly described as follows: the installation, maintenance and servicing of street lighting and traffic signal facilities and appurtenant facilities throughout the District, including the replacement of existing street lighting and traffic signal facilities at various locations throughout the District.

Section 6. The assessment is in compliance with the provisions of the Act, the provisions of the California Constitution Article XIID and the City Council has complied with all laws pertaining to the levy of an annual assessment.

Section 7. The assessment is levied for the purpose of paying the costs and expenses of the improvements described in Section 5 above for Fiscal Year 2020/21.

Section 8. Installation, maintenance and servicing of the street lighting and traffic signal facilities and appurtenant facilities described in Section 5 above shall be

performed pursuant to law.

Section 9. The County Auditor of Los Angeles County shall enter on the County Assessment Roll opposite each lot or parcel of land the amount of the assessment and such assessments shall then be collected at the same time and in the same manner as the County taxes are collected. After collection by the County, the net amount of the assessments, after deduction of any compensation due the county for collection, shall be paid to the City Treasurer.

Section 10. Public property owned by any public agency and in use for a public function and which is included within the District shall not be subject to the assessment to pay for any of the costs and expenses associated with the improvements.

Section 11. The City Treasurer shall deposit all moneys representing assessments collected by the County to the credit of a special fund known as "THE CITY OF MAYWOOD STREET LIGHTING ASSESSMENT DISTRICT FUND" and such moneys shall be expended only for the improvements described in Section 5 above.

Section 12. The adoption of this Resolution constitutes the levy of assessments for the fiscal year commencing July 1, 2020 and ending June 30, 2021.

Section 13. The City Clerk is hereby authorized and directed to file the diagram and assessments, or a certified copy of the diagram and assessments, with the County Auditor, together with a certified copy of this Resolution upon its adoption.

SECTION I

INTRODUCTION

Adequate lighting on public streets and traffic signals to control the flow of traffic and pedestrians are considered important for public convenience and safety. Protection of property and reduction of traffic accidents are specific benefits that properties realize within the City. The lighting benefit is directly related to safety and property protection and therefore increases the perceived and actual usability and enhancement of residential, commercial and industrial properties.

To ensure a flow of funds for a portion of the ongoing maintenance and servicing of street lighting facilities and traffic signals within the boundaries of the City of Maywood (hereafter referred to as “City”), the City Council formed the Street Lighting Assessment District (hereafter referred to as the “District”) and annually levies and collects special assessments to maintain these improvements. The formation of the District and the annual levy of assessments have been made pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (hereafter referred to as the “1972 Act”).

This Engineer’s Report (hereafter referred to as the “Report”) presents the engineering analysis for the District for Fiscal Year 2020-21. The assessment rates applied for the fiscal year will be the same as those assessed in the previous fiscal year. The proposed lighting assessment for Fiscal Year 2020-21, as described in this Report, is approximately \$174,520.

Authority for the Report

This Report is prepared in compliance with the requirement of Chapter 1, Article 4, Landscaping and Lighting Act of 1972, being Part 2, Division 15, sections 22500 through 22679 of the Streets and Highways Code, State of California. The 1972 Act authorizes the maintenance and servicing of public improvements. As applicable or may be applicable to this District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or construction of public lighting facilities;
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities;
- The maintenance or servicing, or both, of any of the foregoing;
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;

- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5;
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines “maintain” or “maintenance” to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement;
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

This Report includes plans and specifications for the improvements, an estimate of the costs of the improvements, a diagram of the District showing the boundary of the District; (the boundaries of the District are coterminous with the City boundaries and, by reference, are hereby made part of this Report), the method of apportioning costs to properties that benefit from the public improvements and services provided, and a listing of the proposed assessment amounts against the parcels or lots that benefit from the improvements. The Report is hereby presented to the City Council for its review and approved as presented or, as the City Council may determine, it should be modified, before approval.

After the Report is preliminarily approved, the City Council may adopt a resolution of intention that describes the improvements, refers to the Report for details of the District, and sets a time and place for a public hearing on the proposed levy of assessments.

Assessments for this District are being levied for the following improvements within the District:

- The maintenance and servicing of arterial streetlights that provide a special benefit to all the assessable parcels within the District;
- The maintenance and servicing of local street lights in close proximity to certain lots and parcels which provide a direct special benefit to these lots or parcels;
- The maintenance and servicing of traffic signals that contribute to traffic flow, thereby providing a measure of safety and pedestrian and vehicular accessibility to residential, commercial and industrial properties.

The 1972 Act, in Section 22573, states that the “net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.” Details of the formula being used to spread the assessments throughout this District are found in Part D of this Report.

Compliance with the California Constitution

In November 1996, voters of the State of California passed Proposition 218 that added Article XIID to the California Constitution requiring certain substantive and procedural requirements for the imposition of assessments. Article XIID requires that assessments comply with stated provisions by July 1, 1997, unless an assessment meets certain exemptions. The exemptions from the procedural and approval requirements are set forth in Section 5 of the Article and include the following:

“(a) Any assessment imposed exclusively to finance the capital costs or maintenance and operation expenses for sidewalks, streets, sewers, water, flood control, drainage systems or vector control.”

This District qualifies as an existing assessment because the District is funding items that are considered exempt under provision (a) quoted above, specifically street improvements. Using the definition provided by the Office of the Controller for the State of California in the Guidelines Relating to Gas Tax Expenditures published by the Division of Local Government Fiscal Affairs, street improvements include street lighting and traffic signals.

SECTION II

ENGINEER'S REPORT PREPARED PURSUANT TO THE PROVISIONS OF LANDSCAPING AND LIGHTING ACT OF 1972 SECTION 22500 THROUGH 22679 OF THE CALIFORNIA STREETS AND HIGHWAYS CODE

CITY OF MAYWOOD

STREET LIGHTING ASSESSMENT DISTRICT FISCAL YEAR 2020-21

Pursuant to the Landscaping and Lighting Act of 1972 (Part 2 Division 15 of the Streets and Highways Code of the State of California, commencing with Section 22500), and in accordance with the Resolution of Intention, adopted by the City Council of the City of Maywood on May 27, 2020, the duly appointed Engineer of Work, Assessment Engineer for the City of Maywood Street Lighting Assessment District (the "District") submit the following Report, consisting of Section I (Introduction), and this, Section II (Engineer's Report), which consists of five (5) parts as follows:

PART A: PLANS AND SPECIFICATIONS

This part describes the improvements maintained by the District. A plan showing the size and location of streetlights and traffic signals to be maintained and serviced in each zone of the District is on file in the Engineering Department and by reference is hereby incorporated into this Report.

PART B: ESTIMATE OF COST

This part contains an estimate of the cost of the proposed improvements to be maintained for Fiscal Year 2020-21, including incidental costs and expenses in connection therewith. The estimate is attached hereto and is on file in the Engineering Department of the City of Maywood.

PART C: ASSESSMENT DISTRICT DIAGRAM

This part incorporates a Diagram of the District showing the exterior boundaries of the District, the boundaries of any zones within the District and the lines and dimensions of each lot or parcel of land within the District. The exterior boundary of the District is coterminous with the exterior boundary of the City of Maywood. This Diagram has been prepared by the Engineer of Work and is on file in the Office of the Director of Public Works of the City of Maywood.

PART D: METHOD OF APPORTIONMENT OF ASSESSMENTS

This part describes the method of apportionment of assessments, based upon each parcel's land use classification within the District in proportion to the estimated special benefits to be received. Furthermore, the benefit received from existing District improvements by any assessable lot or parcel in the District has been determined to be in accordance with the following classifications:

- Residential Level of Benefit
- Industrial Level of Benefit
- Commercial Level of Benefit

All lots or parcels receiving the same level of benefit have been incorporated into a rate zone, the boundaries of which are defined by the equivalent land use zoning boundary established by the City Planning Commission and approved by the City Council, or as otherwise established by the City and shown on official City records. Lots or parcels presently shown as residential land use are deemed to receive no greater level of benefit than the Residential Level of Benefit. A Similar description of rate zone boundaries applies to the Industrial and Commercial Level of Benefits.

The cost for maintenance and servicing of the District improvements for the Fiscal Year 2020-21 have been estimated for all existing streetlights and traffic signals in the City and are shown in Part B. The improvement costs have been distributed to all assessable lots or parcels in the city that have abutting footage on streets in accordance with the method of apportionment and benefit received.

PART E: ASSESSMENT ROLL

This part contains an assessment of the estimated cost of the improvements on each benefited parcel of land within the District. The Assessment Roll is filed in the Office of the City Clerk of the City of Maywood and is incorporated in this Report. The list is keyed to the records of the Los Angeles County Assessor, which are incorporated herein by reference.

ASSESSMENT DISTRICT DIAGRAM

The boundaries of the District are shown herein. The exterior boundaries of the District are coterminous with the exterior boundaries of the City. There are three (3) street lighting benefit zones within the District:

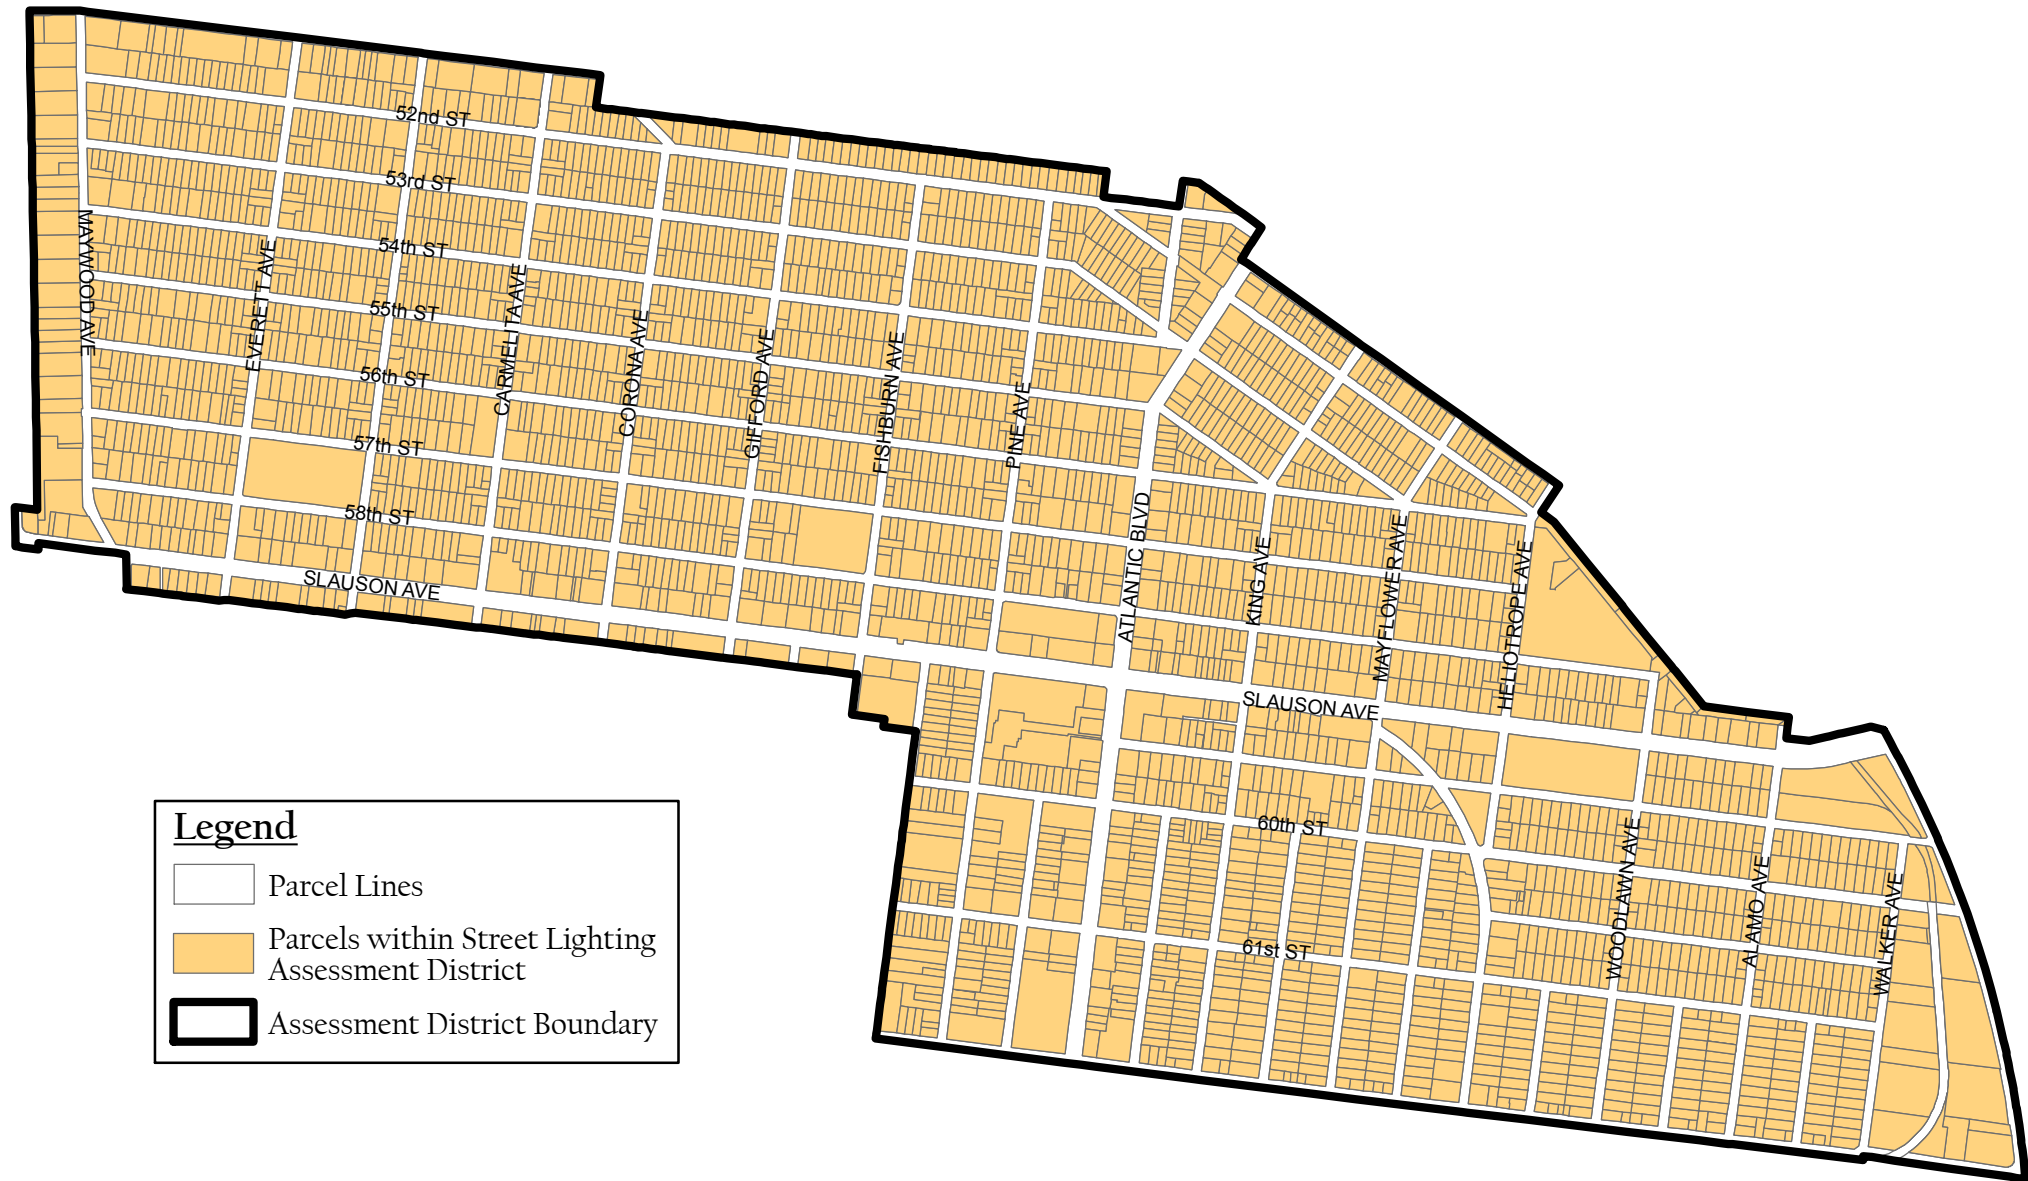

- The Zone 1 level of benefit is defined as the residential benefit.
- The Zone 2 level of benefit is defined as the industrial benefit.
- The Zone 3 level of benefit is defined as the commercial benefit.

The boundaries of the preceding three zones are the boundaries of residential, industrial and commercial land use zones as shown on the official zoning map and/or in the zoning records of the City of Maywood. A reduced copy of the zoning map is on file with the Engineering Department of the City and is open for public inspection. It is understood that the term “official zoning map” shall include those zone changes approved but not currently plotted on the map.

The lines and dimension of each lot or parcel within the District are those lines and dimensions shown on the maps of the Los Angeles County Assessor for the year when this Report was prepared. The Assessor’s maps and records are incorporated by reference herein and made a part of this Report.

PART D

METHOD OF APPORTIONMENT OF ASSESSMENTS

General

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements which include the construction, maintenance and servicing of public lights and appurtenant facilities. The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIIIID addresses several key criteria for the levy of assessments, notably:

Article XIIIID Section 2d defines District as:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIIIID Section 2i defines Special Benefit as:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIIIID Section 4a defines proportional special benefit assessments as:

“An agency which proposes to levy an assessment shall identify all parcels which a special benefit will have conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

The method of apportionment described in this Report for allocation of special benefit assessments utilizes commonly accepted engineering practices and have been established pursuant to the 1972 Act at the time the District was established. The formulas used for calculating assessments reflects the composition of parcels within the District and the improvements and services provided, to fairly apportion the costs based on the special benefits to each parcel.

Basis of Benefit

Each of the improvements have been carefully reviewed by the City and the corresponding assessments have been proportionately spread to each parcel based on special benefits received from the improvements as determined at the time the District was established.

The special benefits conferred on property from the District's improvements and services were determined to differ for varying types of land uses. All assessable property within the District is to receive one of the three following levels of benefit based on their land use classification:

- Residential Level of Benefit
- Industrial Level of Benefit
- Commercial Level of Benefit

All lots or parcels receiving the same level of benefit have been incorporated into a zone of benefit based on each properties land use. As result, the three (3) zones of benefit were established: Zone 1 (Residential), Zone 2 (Industrial), and Zone 3 (Commercial). The boundaries of each zone of benefit are defined by the equivalent land use zoning boundary established by the City Planning Commission and approved by the City Council, or as otherwise established by the City and shown on official City records. Lots or parcels presently shown as residential land use are deemed to receive no greater level of benefit than the Residential Level of Benefit. A Similar description of the parcels subject to both Zone 2 and Zone 3 applies to the parcels identified as having an Industrial and Commercial Level of Benefit.

The cost for maintenance and servicing of the District improvements for the Fiscal Year 2020-21 have been estimated for all existing streetlights and traffic signals in the City and is shown in Part B. The improvement costs have been distributed to all assessable lots or parcels in the city that have abutting footage on streets in accordance with the method of apportionment herein and benefit received.

The District costs are to be apportioned to each assessable property based on the special benefits conferred on such property. The method of apportioning costs based on benefit for lighting to each assessable property is based on the number of linear feet of abutting public street footage of a property multiplied by a rate based on the zone of the benefit and each parcel's land use.

The linear feet of abutting public street footage for each parcel is the length in feet shown on the current Los Angeles County Assessor maps or as previously established by the City Engineer (or their designee) for each parcel. In addition, it was determined that lighting along the side or rear of a property confers a differing level of benefit on the property, then lighting that fronts a property. For this reason, any abutting public street footage along the side or rear of a property is determined to be one-half (1/2) of the benefit of the parcel's abutting street footage along the front of a property.

Each zone of benefit was assigned a maximum assessment rate per linear foot at the time the District was established. Rate factors were utilized to apportion the costs based on the differing levels of benefit conferred on the differing types of properties and their associated land uses. The methodology for determination of the rate factors for residential, industrial and commercial

parcels were determined as shown below.

Local Residential	0.4 f.c.* Level 1 (Residential)
Collector	1.2 f.c.* Level 3 (Industrial)
Major Intermediate	1.4 f.c.* Level 3.5 (Commercial)

**f.c. = foot candle*

***The information shown above was extracted from the American National Standard Practice for Roadway Lighting, RP-8, Page 11, Table I, Recommendation for Average Maintained Horizontal Illumination.*

For the purposes of apportioning the special benefit conferred on property within the District, the average illumination for the following land uses were utilized:

- The Residential level selected was determined to be the lowest average illumination recommended for a City street.
- The Industrial level selected is the next highest average illumination recommended for a City street.
- The Commercial level selected is the highest average illumination recommended for a City street.

In view of variations in the magnitude of the existing street lighting from the above recommended values, ratios between residential, industrial and commercial levels were reduced to more closely reflect an estimate of the benefits to be conferred. The following ratios were assigned to the various zones and used to derive the maximum annual assessment rates for each zone of benefit:

• Zone 1 level of benefit (Residential)	=	1.0
• Zone 2 level of benefit (Industrial)	=	1.5
• Zone 3 level of benefit (Commercial)	=	2.0

Each assessable property within the District's boundaries are to be categorized as being subject to one (1) of the three (3) zones of benefit based upon each parcel's Los Angeles County Assessor assigned land use code, or the City's land use zoning map.

Within the boundaries of the District, there are several types of properties that are considered to receive no special benefit from the District improvements and are therefore not assessed. These parcels include:

- All publicly owned parcels;
- Certain public utility parcels utilized for rights-of way;
- Privately owned open space parcels; and
- Privately owned "sliver" parcels that have resulted from a lot line adjustment with an adjacent larger parcel. The adjacent larger parcel, of which these "sliver" parcels are a part, are assessed at the residential rate.

Maximum Assessment Rates

The Fiscal Year 2020-21 Maximum and Proposed Assessment Rates for each zone of benefit are shown below.

Zone of Benefit	Approved Maximum Assessment Rates	Proposed Fiscal Year 2020-21 Assessment Rates
Zone 1 (Residential)	\$0.746	\$0.746
Zone 2 (Industrial)	\$1.119	\$1.119
Zone 3 (Commercial)	\$1.492	\$1.492

Note: The rates shown in the table above are to be applied by Zone to each parcel's assigned street front footage.

The Maximum Assessment Rates for each zone of benefit are the same maximum rates that have been historically applied and that were previously approved. Any future increase in the maximum assessment rates or substantial changes in the services provided would require that the District be brought into compliance with all the requirements of Article XIIID and would require the approval of the property owners subject to the assessment based upon a mailed ballot which would be sent to each property owner. It should be noted that an increased assessment to an individual property resulting from changes in development or land use does not constitute an increased assessment.

Sample Annual Levy Calculation

Sample annual levy calculations for each zone of benefit as described in the *Method of Apportionment* above, has been outlined for illustration purposes.

Zone 1 (Residential)

Individual Parcel's Annual Assessment = $(RF + (SR_1/2) + (SR_2/2) + (SR_3/2)) \times$
Zone 1 Rate (or other applicable rate for mixed use property)

Zone 2 (Industrial)

Individual Parcel's Annual Assessment = $(IF + (SR_1/2) + (SR_2/2) + (SR_3/2)) \times$
Zone 2 Rate (or other applicable rate for mixed use property)

Zone 3 (Commercial)

Individual Parcel's Annual Assessment = $(CF + (SR_1/2) + (SR_2/2) + (SR_3/2)) \times$
Zone 3 Rate (or other applicable rate for mixed use property)

If a parcel is zoned for mixed-use, and consists of multiple land use classifications, all public street footage surrounding the parcel will be assessed at the applicable zone(s) rate(s), or a combination thereof, as determined by the Assessment Engineer.

The following abbreviations used in the Sample Annual Levy Calculations shall have the following meanings:

- RF All residential parcels with public street footage along the front of the property.
- IF All industrial parcels with public street footage along the front of the property.
- CF All commercial parcels with public street footage along the front of the property.
- SR_{1,2,3} All parcels (residential, industrial, and commercial) with public street footage along the side and/or rear of the property. SR shall be determined to be ½ of the public street footage.

PART E

ASSESSMENT ROLL

Parcel Identification, for each lot or parcel within the District, shall be the parcel as shown on the Los Angeles County Assessor Parcel Maps and/or the Los Angeles County Secured Tax roll for the year in which this Report is prepared. A listing of parcels to be assessed within this District along with the proposed assessment amounts is included in the following pages.

Upon approval of the Engineer's Annual Levy Report, and confirmation of the proposed assessments, the assessment information will be submitted to the County Auditor/Controller and included on the property tax roll in Fiscal Year 2020-21. If the parcels within the District and referenced in this Report, are re-numbered, re-apportioned or changed by the County Assessor's Office after approval of the Report, the new parcel along with the appropriate assessment amount will be submitted to the County Auditor/Controller. If the parcel change made by the County includes a parcel split, parcel merger or change in tax status, the assessment amount submitted on the new parcels will be based on the method of apportionment and applied levy rates approved in this Report by the City Council.

CITY COUNCIL STAFF REPORT

DATE: JUNE 10, 2020

TO: HONORABLE MAYOR, AND MEMBERS OF THE CITY COUNCIL

FROM: JENNIFER E. VASQUEZ, CITY MANAGER *yn*

BY: DAVID MANGO, DIRECTOR OF BUILDING AND PLANNING

RE: A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MAYWOOD AUTHORIZING AN APPLICATION FOR LOCAL EARLY ACTION PLANNING (LEAP) GRANT PROGRAM FUNDS

RECOMMENDATION

Staff recommends that the City Council approve a resolution authorizing an application for the LEAP grant program, and authorizing the City Manager to accept receipt of funds and take all necessary actions to procure the grant.

BACKGROUND

The Local Early Action Planning (LEAP) grant program is made available as a portion of the Local Government Planning and Support Grants program administered by the California Department of Housing and Community Development and provides funding to jurisdictions for the preparation and adoption of planning documents and process improvements that accelerate housing production and facilitate compliance with the Regional Housing Needs Allocations. Funding for Maywood is available in the amount of \$150,000 for the preparation of plans, streamlined processes and ordinance amendments that facilitate the production of housing. These LEAP funds can be utilized to leverage and expand upon SB 2 funds (\$160,000) that were previously awarded to the City for essentially the same purposes including General Plan and Zoning Code amendments, accessory dwelling unit (ADU) preapproved plans, and other amendments that reduce housing constraints and facilitate residential development. In order to apply for the grant funds, a resolution of authorization is required from the City Council. The resolution of authorization is hereby forwarded for Council consideration.

DISCUSSION

A number of eligible LEAP planning activities and programs may expand on work already presented to Council earlier this year, which are programed through the SB 2 grant program. The planning activities that were approved for funding through SB2 are aimed at bringing the City into compliance with various State legislation related to general plans and housing that direct updates to the City's planning documents, as well as meeting the City's RHNA obligations. LEAP funding can be used to augment, if necessary, SB 2 activities including:

- To design and provide Accessory Dwelling Unit (ADU) standard plans and other resources which will guide residents and property owners interested in ADU construction.
- To identify and to revise subjective guidelines into objective design and development standards as well as streamlining the development review process to comply with the 2017 housing bill SB 35 and to the Housing Accountability Act (HAA).
- Also LEAP eligible is funding for the 6th cycle (2021-2029) housing element update. This update, unlike the 5th cycle, will involve a complete overhaul of the element, which will require the collection of new data and a robust program of public input, so that the housing programs that will be adopted with this element, will address the actual needs of the residents.

Grant funds are distributed over the counter on a noncompetitive and reimbursable basis (quarterly). Staff intends to submit the grant application following Council approval of the resolution. Staff has teleconferenced with HCD staff to confirm the eligibility of the proposed project list. HCD anticipates a 60- to 90-day review and approval period for the grant. Staff is estimating 18 to 24 months to complete the project list. LEAP grant applications are due by July 1, 2020, and funds must be expended by December 31, 2023.

LEGAL REVIEW

The City Attorney has reviewed this report.

FISCAL IMPACT

The City has been allocated \$150,000 in LEAP funds.

SUBJECT: CONSIDERATION OF A NINETY DAY EXTENSION OF SECOND AMENDMENT TO THE SERVICES CONTRACT AGREEMENT BETWEEN THE CITY OF MAYWOOD AND INTERWEST CONSULTING GROUP

RECOMMENDATION:

Staff recommends that the City Council, authorize the 90-day extension of the Second Amendment to the Services Contract Agreement in the form approved by the City Attorney.

BACKGROUND:

The City entered a contract with Interwest Consulting Group in October 2014. There have been a first and second amendment executed to extend the term. The second amendment extended the term date to June 30, 2020. Consequently, the City released a request for proposals (RFP) in May 2020 and received two proposals. Due to the lack of responses, the City has extended the date for submissions to June 26, 2020.

DISCUSSION:

The current Interwest Consulting Group agreement will term on June 30, 2020. The City released a RFP in May 2020 and recently extended the date for submissions to June 26, 2020. LEGAL REVIEW:

The City Attorney has reviewed this staff report.

FISCAL IMPACT:

The 90-day extension of the Interwest agreement will not substantially affect the City's budget.

AGENDA REPORT

CITY OF MAYWOOD

AGENDA 9
ITEM NO. _____

DATE: JUNE 10, 2020
TO: HONORABLE MAYOR AND MEMBERS OF THE CITY COUNCIL
FROM: JENNIFER E. VASQUEZ, CITY MANAGER *JV*
BY: HRANT MANUELIAN, FINANCE DIRECTOR
SUBJECT: FISCAL YEAR (FY) 2020 – 2021 BUDGET WORKSHOP #2

SUMMARY:

This is the second of two planned budget workshops, prior to a public hearing in June 2020 to consider adoption of the proposed FY 2020-2021 budget. Initial draft budgets have been reviewed and discussed with each of the departments.

BACKGROUND:

The purpose of this workshop is for the City Council to receive updated information regarding the budget for FY 2020 – 2021; and to provide direction for potential changes to the budget structure for FY 2020 – 2021.

DISCUSSION:

In the last budget workshop meeting on May 27, 2020 the estimated General Fund ending balance was \$2,495,184. Based on additional information and discussion with department heads these updates were made to the to the budget.

General Fund Estimated Fund Balance

	Estimated FY 20-21 Fund Balance
Estimated Beginning Fund Balance July 1, 2020	2,543,811
Revenue	10,597,200
Expenditure	10,835,547
Net Transfers In/(Out)	299,000
Change in Fund Balance	60,653
Ending Fund balance June 30, 2021	2,604,464

Special Revenue Funds Combined Estimated Fund Balance

	Estimated FY 20-21 Fund Balance
Estimated Beginning Fund Balance July 1, 2020	5,033,400
Revenue	4,196,158
Expenditure	5,683,045
Net Transfers In/(Out)	(155,000)
Change in Fund Balance	(1,641,887)
Ending Fund balance June 30, 2021	3,391,513

See **Attachment No. 7** for details of fund balances for the special revenue funds. The City is estimating that fund balances will decrease in the special revenue funds but this is expected and also necessary in order to not forfeit the funds in these accounts. There are several capital projects that have been budgeted for and those are primarily funded by the various special revenue funds.

The major changes to the budget are described below and in the attached documents, which identify all changes with explanation for major items.

Changes in revenues

There were two major changes to the revenue budget. First was the classification of the sewer assessment revenues. In prior fiscal years the Sewer fund had been presented as an enterprise and in the last budget workshop they were budgeted in the General Fund, however based on review and clarification of how the assessments are used it was determined that the Sewer fund is a special revenue fund. The classification as a special revenue fund is also consistent with how the auditors have reported it in the annual financial statements. The budget of \$284,000 was moved from the General Fund to the Sewer special revenue fund. See **Attachment No. 1** for proposed budget versus the budget presented in the prior workshop with differences.

Second was the addition of the transfer in from Measure A and the Supplemental Law Enforcement Services Fund (SLESF) grant. Measure A funds are to be used for maintenance and repair of park and park facilities. SLESF funds will be used to partially offset the cost of the Sheriff's contract.

The only other major change in the special revenue funds revenue was the addition of the Measure A funds of \$144,000 which will be used for parks and park maintenance. See **Attachment No. 3** for listing of special revenue funds.

Changes in expenditures

There were a few changes to the General Fund expenditure budget with an overall decrease of \$134,131. Many of these changes were due to the City being able to reclass certain expenditures to special revenue funds thereby reducing the impact in the General Fund. See **Attachment No. 2** for detailed list of differences and explanations.

The Special revenue funds had an overall increase of \$513,479 in the expenditure budget. This increase was needed mainly for the addition of three more capital projects. The capital projects added were the Flashing Stop Signs for school zones, Street Striping, and an update of the Pavement Management System. There were several expenditures, including payroll that were moved out of the General Fund and added to the Special revenue as they are funded by the special revenue funds. See **Attachment No. 4** for a detailed list of differences and total budget for Special Revenues.

City Events for FY 20-21

A total of \$25,400 has been budgeted for and funded by the general Fund. See **Attachment No.5** for the list of events and budgeted costs.

Capital Improvement Projects

As discussed in the last budget workshop the City has several sewer and street related projects that are being carried forward from the prior fiscal year. We had also mentioned that there were additional projects to be added. The Flashing Stop Signs, Street Striping and Pavement Management System projects were added to the capital projects budget. See **Attachment No. 6** for the complete list of projects, associated budgets, and funding sources.

Open Item

The City has available funding from Measure A which has not been incorporated into the budget. There is roughly \$288,000 from two prior years and an additional \$144,000 will be available at the start of the fiscal year on July 1 for a total of \$432,000. These funds are available for use on parks and park maintenance including utilities. The budget presented does not have any expenditures budgeted for this. Are there any projects that council has regarding the parks that these funds could be used for?

RECOMMENDATION:

Provide direction to staff, which will be used to build and complete the budget.

LEGAL REVIEW:

The City Attorney has reviewed this staff report.

FISCAL IMPACT:

No fiscal impact. City Council direction will be used to prepare the budget for FY 2020 – 2021 budget.

FY 2020-2021 Preliminary Budget	FY 2020-2021 Proposed Budget	Change from Prelim Budget

Explanation for major changes:

A - This was adjusted down to the actual amount expected to be received. This accounts for the rent received by the City from the cell phone tower.

B - The Sewer fund has in the past been classified as an Enterprise Fund in the budget, however upon further review of the purpose of the fund it was determined that this should be presented as a Special revenue Fund. This is consistent with how the auditors have reported it in the financial statements. During the initial budget the revenues were presented as General Fund revenues until the correct determination was made. Therefore the General Fund budgeted revenues have decreased however the Special Revenue fund budgeted revenues have increased.

C - These transfers in were added to account for revenues that will be received from Measure A and the Supplemental Law Enforcement Services Fund (SLESF) grant. Measure A funds are to be used for maintenance and repairs of park and park facilities. The SLESF funds will be used to offset the cost of Sheriff's contract.

Account Code	Account Title	<u>Preliminary FY 2020-2021 Budget</u>	<u>Revised FY 2020- 2021 Budget</u>	<u>Change from Prelim Budget</u>
A - Several re-allocations were done to maximize the budget as per the budget provided to the DOF for ROPS funding in the Successor Agency.				
B - The County has not increased the liability portion of the Sherriff's contract and has kept it at 11%. This was previously budgeted at 11.5%.				
C - Budget for City engineering services were not previously included as the amount was not yet determined.				
D - This account is for the cost of the trash bins and street sweeping that were included in the CWS contract. However, as they are no longer the trash hauler for the City these costs were absorbed by the General Fund. The budget was reduced since the street sweeping services were moved to the Gas Tax fund as it was eligible to be paid from there. Also the new hauler has agreed to take on at least one of the trash bin contracts.				
E - The increase was due to the cost of HdL providing review services for the annual cannabis business license renewals. These costs are reimbursed by the collection of fees from the cannabis businesses.				
F - This budget was reduced as we were able to move several contracts to special revenue funds as they were eligible to be paid from Prop C, CDBG, and Gas Tax.

A - These changes are mainly due to reclasses of the expenditures from contractual services to projects. This change was done so that it would be easier to track and record capital projects.

B - These were costs that were budgeted for in the General Fund but are Prop C eligible and therefore moved out of the General Fund.

C - Additional cost for capital projects added for Flashing Stop Signs, Street Striping, and the Pavement Management System.

COUNCIL AGENDA

ITEM No. 10

CITY COUNCIL STAFF REPORT

DATE: MAY 13, 2020

TO: HONORABLE MAYOR, AND MEMBERS OF THE CITY COUNCIL

FROM: JENNIFER E. VASQUEZ, CITY MANAGER *JV*

BY: EDITH CARRILLO, ADMINISTRATIVE ANALYST

SUBJECT: DISCUSSION REGARDING THE ALL-NIGHT RESIDENTIAL
PARKING PERMIT ISSUANCE PROCESS AND RELATED FEES

STAFF RECOMMENDATION

Staff recommends that the City Council discuss the current All-Night Residential Parking permit issuance process, related fees and provide staff direction.

BACKGROUND

The City has had an all-night parking permit and investigation process since 1965. There have been different actions taken by various Councils to adjust the fees and application process.

Currently, the application requires that the applicant have a valid driver's license with a Maywood address; current vehicle registration, showing the address on the application and the applicant must show a current utility bill in the applicant's name. The permit expires annually on September 1st.

The fee for a new permit application is \$25.80. A renewal is charged \$10.00; each address is allowed up to three (3) permits if each applicant can produce the required documents as listed above.

DISCUSSION

At this time, staff is recommending that the Council consider minor revisions to the current application process to simplify the application process to avoid long lines and to allow for a seamless transition to taking payments and applications online. As the expiration date for the permits comes near, lines can extend out to City Hall's parking lot or it can extend up the stairs into the Council Chambers when the temperatures are high outside

Due to the need to collect and make copies of the documentation presented by applicants assisting residents is very time consuming and a customer at times could wait up to 30 minutes or more. Due to COVID-19 and to better the customer experience staff is proposing the following changes so that this process can become fully automated with our consulting partner Phoenix.

Phoenix has a web portal that will allow residents to either upload the needed documents electronically and pay online or mail the application and payment to their processing center. This option will eliminate the long lines at City Hall; such lines are a health concern as it will be very difficult to keep people waiting 6-feet apart. Moving forward with this process we will advertise and encourage all residents to utilize the Phoenix web portal which will be linked to our website.

Application Process

Staff recommends that the Maywood Resident verification process be simplified to require the following documents:

- Valid California driver's license with a Maywood address for applicant; and
- Copy of the Vehicle Registration which will have address of the applicant; in the case that an applicant has a co-signer for the vehicle and the address does not match the applicant's address, they can provide proof of car insurance with the applicant's address

The expiration date August 31st and weight limits for vehicles on residential streets will remain the same. Each address will be limited to three (3) all-night parking permits.

Fee

- One fee for new applications and renewals; \$10.00.

LEGAL REVIEW

The City Attorney has reviewed this report.

FISCAL IMPACT

The City's fees do not fully cover the processing and enforcement of the All-Night Residential Parking Issuance program. This year to ensure transparency and to offer 24/7 access to the application the City contracted with Phoenix to manage it. However, due to the complicated fee schedule we were unable to process the permits online. Phoenix instead was mailed the applications by City staff or directly by residents and Phoenix staff inputted the information provided. If the new fee structure is approved residents will be able to fully use the Phoenix website portal.

The revenue collected for permit issuance to date is \$ 61,923.73. The amount collected for enforcement of all parking violations has been \$157,057.97; this amount is lower than expected as we have stopped enforcement and permit issuance in March due to the County's COVID-19 Stay at Home Order.

The newly proposed single fee for permit issuance and renewal will not cover the cost of this program. Currently, we have expended \$41,111.35 for the services provided by Phoenix; this does not include the cost for enforcement or the cost that is due to the courts.

CITY COUNCIL STAFF REPORT

DATE: JUNE 10, 2020

TO: HONORABLE MAYOR, AND MEMBERS OF THE CITY COUNCIL

FROM: JENNIFER E. VASQUEZ, CITY MANAGER

BY: DAVID MANGO, DIRECTOR OF BUILDING AND PLANNING

RE: PUBLIC HEARING TO APPROVE THE PROPOSED
AMENDMENTS TO THE FISCAL YEARS (FY) 2019-2020 AND
2020-2021 COMMUNITY DEVELOPMENT BLOCK GRANT
(CDBG) PROGRAMS TO ALLOCATE SUPPLEMENTAL FUNDS
FROM THE CORONAVIRUS AID, RELIEF, AND ECONOMIC
SECURITY (CARES) ACT

RECOMMENDATION

That the Maywood City Council, after holding a public hearing, adopt a Resolution approving the amendments to the Fiscal Years 2019-2020 and 2020-2021 Community Development Block Grant (CDBG) programs to allocate funds from the Coronavirus Aid, Relief, and Economic Security (CARES) Act as outlined in the proposed program budget.

BACKGROUND

Each program year, the City receives an annual CDBG allocation from the U.S. Department of Housing and Urban Development (HUD) through the Los Angeles County Development Authority (LACDA).

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security Act (CARES Act) (Public Law 116-136) was signed into law to provide funding for programs to prevent, prepare for, and respond to the COVID-19 pandemic. Funding available under the CARES Act included an appropriation to carry out the Community Development Block Grant-Coronavirus (CDBG-CV) Program.

As a participant in the Los Angeles Urban County's CDBG Program, the City will receive an allocation of CDBG-CV funds of approximately \$255,354. Projects must meet all regular CDBG funding requirements and the CDBG-CV goals of preventing, preparing for, and responding to the COVID-19 crisis.

DISCUSSION

The CDBG-CV Program will provide supplemental CDBG funding to respond to the critical needs of residents and businesses impacted by COVID-19. These funds are in addition to the annual CDBG allocation to be used for community development projects which benefit persons of low- and moderate-income levels and aid in the prevention and elimination of blighted conditions.

HUD encourages and requires that the City involve the general public in the development of the City's CDBG-CV Program. This public hearing was noticed through the attached public hearing notice, pursuant to HUD and LACDA requirements, and complies with citizen participation regulations.

PROPOSED CDBG-CV PROGRAM DESCRIPTIONS

Safer at Home Order Compliance Program
Proposed Allocation: \$175,000

This is a new program which will provide funding for personnel to perform local enforcement activities required as a result of the Safer at Home Order to protect the public. City staff is needed to conduct monitoring of compliance by the local businesses and to provide support and traffic control assistance at the Southeast Rio Vista YMCA "Grab and Go" food center, and Mobile Food Pantry, locations. The goal of the program is to protect the health and safety of the residents who are primarily of low- and moderate-income from the spread of the COVID-19 disease and to assist with the food insecurity issues that our residents are facing due to COVID-19.

Business Recovery Assistance Program
Proposed Allocation: \$80,354

This new program will provide funding for personnel to assist locally owned small businesses with completing grant and loan applications to obtain COVID-19 business recovery financial assistance.

CITY COUNCIL STAFF REPORT

DATE: JUNE 1066, 2020

TO: HONORABLE MAYOR, AND MEMBERS OF THE CITY COUNCIL

FROM: JENNIFER E. VASQUEZ, CITY MANAGER *JV*

BY: KEVIN KO, CONTRACT CITY ENGINEER

RE: HOLD A PUBLIC HEARING REGARDING THE ANNUAL SEWER REPORT AND LEVY OF THE ANNUAL SEWER SERVICE CHARGE FOR FISCAL YEAR 2020/21 PURSUANT TO CHAPTER 14 OF TITLE 6 OF THE MAYWOOD MUNICIPAL CODE AND ORDER THE ANNUAL SEWER SERVICE CHARGE TO BE COLLECTED ON THE COUNTY OF LOS ANGELES TAX ROLL

RECOMMENDATION

The public hearing for the levy of the annual sewer service charge was inadvertently noticed for the meeting of June 10, 2020 instead of the correct date of June 24, 2020. This hearing will be re-noticed for June 24, 2020, however, if there are any members of the public who desire to speak on this item at the meeting, the City Council may accept their comments.

BACKGROUND

On June 13, 2018, City Council adopted Ordinance No. 18-05 establishing sewer charges to pay for the operation and maintenance of the City's sewer system, including capital replacement costs. Ordinance No. 18-05 also provides that commencing July 1, 2019 and, on each July 1st, thereafter, through and including July 1, 2022, the annual sewer service charge may be increased annually by an amount equal to the annual increase in the Engineering News Record Construction Cost Index for Los Angeles Area (the "ENRLA"), as of February of each year. For any fiscal year that the sewer service charge is not increased by the allowable increase in the ENRLA for that year, the City may add the increase for that year to the ENRLA increase in subsequent years.

Maywood Municipal Code (MMC) Chapter 14 of Title 6 and California Health and Safety Code, Article 4 of Chapter 6 of Part 3 of Division 5, Section 5470, affirms that City Council is authorized to levy an annual sewer service charge and to have such charge collected on the tax roll. As required by the California Health and Safety Code, each year that the City levies and collects charges on the tax roll, the City must prepare a report that contains a description of each parcel of real property to which the charge is applicable and the amount of the charge for each parcel and must hold a public hearing. Therefore, staff prepared a report which is on file in the City Clerk's office. City staff is recommending levying the FY 2020/21 sewer service charges at the same rates as FY 2019/20.

DISCUSSION

Notice of the public hearing on the annual sewer report and the proposed levy and collection of the sewer service charges on the property tax roll will be republished as noted in the recommendation above. Notwithstanding, notice was published for the meeting date of June 10, 2020.

FISCAL IMPACT

There is no fiscal impact at this time. If the sewer charges are not levied as proposed there would be a loss of revenue of approximately \$297,600 for Fiscal Year 2020/21.
